11:15 am	Identification of Approaches for accomplishing Objectives	All
	Discussion of approaches	
	Writing assignments, opportunities for Integration, next meeting	All
1:00 pm	Adjourn	

Note: Clearly, this is an ambitious agenda. If some items require more time, we'll take the time!

Also, we will be applying “brainstorming” techniques to identify objectives and potential approaches for accomplishing the objectives. A key element of this technique is that all positive and constructive thoughts are captured. Concerns, problems, limitations, prioritization, etc. are reserved for general discussion after the brainstorming session has been completed.
